About me

Level Designer with 4 years of experience. I specialize in the full cycle of level creation, from grayboxing and gameplay prototyping to final gameplay tuning and implementation of in-game events. I am constantly seeking new opportunities for growth, both professionally and beyond.

Experience

Level Designer [Azur Games]

April 2024 - November 2025

Full-time | Remote

Project: SWAT Shooter Police Action FPS

Responsibilities:

- Full level creation cycle, from prototyping to finalization.
- Game mechanics prototyping.
- Lightmap baking and lighting setup.
- Asset integration into the game engine.
- Support for previously created levels.
- TTK and enemy balance on the level.
- Writing Pipeline documentation for level production.
- Writing documentation for: tools, level production pipeline, asset library, and metrics (environment, player, enemies).
- Formulating tasks for ART and DEV departments regarding the creation of assets, mechanics, and tools.
- Level optimization for mobile devices.
- Overhaul of the entire level based on received feedback.

Level Designer [Freelance]

February 2022 - March 2024

Part-time | Remote

Responsibilities:

- Designing and assembling locations in the editor.
- Establishing the graphic style.
- Metrics for Player/NPC/Level and writing relevant documentation, as well as compiling documentation related to tools and level design in general.
- Writing Test Tasks for creating art for levels and its subsequent integration.
- Developing criteria and requirements for level design.
- Adjusting lighting, composition, and other artistic techniques at the level.
- Working with Git, Plastic SCM.

Level Designer [Unannounced Project]

March 2022 - September 2022

Freelance | Remote

Description:

- Worked on an unannounced game - a 2D top-down adventure RPG.
